RE: Letter of Recommendation

To Whom It May Concern:

In the past 29 years I have worked with many people, I can honestly say Bill was one of the best!

Bill is of the highest character. He was always professional, well informed, had done his homework, took his responsibilities seriously, and was fair. That is a great mix of qualities that are hard to come by in this day and age. He will bring experience, skill, and balance to any project he is involved in.

I can recommend Bill with confidence for any project he feels he is up to. Please feel free to contact me directly for more specific feedback.

Sincerely,

Michael S. White

President
